NOW THE MAYOR

Gets his Whack at Messrs. Henry and McKown, After the

EFFORT TO SECURE INJUNCTION

Has Failed, Judge Paul Having Handed Down his Decision Yesterday Afternoon--The Court Sustains the Board in its Right to Compel Compliance With the Rules It has Promulgated.

The controversy between the city water board and Real Estate Agent James A. Henry, which has been so prominently in the public eye for several days, was given another whirl in the legal arena yesterday and the water board comes off the field of carnage with colors flying and Mr. Henry's figurative scalp dangling at its belt.

This development came in the opinion handed down by Circuit Judge Joseph R. Paul, denying the application of the Beck heirs for an injunction to restrain the water board from again shutting off the water from tenants in the Beck block owing to the failure of the Ohio Valley Trades & Labor Assembly to pay the water rent assessed against it.

In his decision, Judge Paul holds that the water board has the right to turn off from a delinquent consumer his water, and the fact that there are other tenants in the same building who are not delinquent would be no bearing, as if it had the board would be left without remedy to reach the delinquent, especially where there is one pipe entering the building. It is further held, as a matter of equity, that the plaintiffs, being the landlords, had a remedy--the piping of the block for each tenant separately. Another remedy would have been for either the tenant or landlord to pay the amount assessed by the water board and enter a petition for rebate.

In this morning's police court, the case of the water board against Real Estate Agent James A. Henry, Charles Henry and H. L. McKown, charged with violation of the water board's rules in turning off the water at the Beck block after it had been turned off by the water board, will be put on trial, and the outcome will be awaited with interest.

Officer Deymer Ill.

Police Officer Zachariah Deymer, of the Island, became suddenly ill last night, and early this morning his condition was said to be serious. He was overcome by a pulmonary trouble, and found it very difficult to breathe.

Charged With Theft

Shortly before 3 o'clock this morning, Thomas Gaucher or Gaughen, was committed to jail on a warrant issued by Justice of the Peace Allen, charged with the theft of a suit of clothes. Officer Meyer made the arrest.

Altered Oil Leases.

Special Dispatch to the Intelligencer. CLARKSBURG, W. Va., August 1.--Harper Baker, of Mannington, arrested at Salem Monday evening, and brought here upon a warrant charging him with altering and erasing vital points in oil leases, escaped from the officer's custody and is now at large. Baker is charged with obtaining by fraud six leases, covering 1,000 acres of territory in which documents he scratched the name of the lessor, C. C. Andrews & Co., oil operators, of Ohio, and interlined his own name. He then disposed of the leases to the South Penn Oil Company for \$500. Six prominent farmers of Cherry Camp, this county, were duped in the transaction.

Death Instantaneous.

Special Dispatch to the Intelligencer. CHARLESTON, W. Va., August 1.--Ballard Gunnure, while logging on Laurel, twenty-five miles above Madison, was killed yesterday in attempting to roll a log upon a skidway. His skull was crushed in and death was instantaneous.

Ex-Mayor of Huntington Dead.

Special Dispatch to the Intelligencer. HUNTINGTON, W. Va., August 1.--Capt. Thomas J. Burke, an ex-mayor of this city, died at the home of his brother, E. Butler Burke, at Burkettown, Virginia, to-day. He was one of the pioneers of this city, and still owns valuable real estate here.

Miners Wages Advanced.

BIRMINGHAM, Ala., August 1.--Commencing to-day, 7,000 coal miners in the employ of the Tennessee Coal, Iron & Railway Company, and the Sloss Iron & Steel Company, receive fifty-five cents per ton for mining coal, which is an advance of two and one-half cents and a total raise of fifteen cents per ton since March 1. Wages are now at the maximum figure agreed upon in the new wage scale, which makes the price of pig iron on the basis of the miners pay.

ELKHORN, W. Va., August 1.--Five leading coal companies in this field, this morning advanced the mining rate fifteen cents. Three thousand miners are affected.

Accident to Funeral Cortege.

PITTSBURGH, Pa., August 1.--Two carriages filled with mourners in the funeral cortege of Mrs. Harry Smith, were struck to-day by a consolidated traction car on Fifth avenue and nine persons were severely hurt. Those hurt the worst are Rev. J. H. Fitzwilliam and two daughters; Dr. Fawcett, Undertaker James Flannery and driver James O'Brien. None of the injured are fatally hurt, but suffer from bad cuts and bruises.

Indian Dead, too.

AMHERST, Mass., August 1.--The body of Eugene Takahpger, the Indian who killed Miss Edith Morrell and who then set fire to the Morrell's barn, was found to-day in the ruins of the barn. The Indian killed Miss Morrell because she rejected his attentions.

Samoan Kingship. (Continued.) APIA, Samoa, July 26, Via AUCKLAND, N. Z., August 1.--At a meeting of the Samoan commissioners, just held, both parties signed an agreement abolishing the kingship and president and agreeing to an administrator with a legislative council of three tripartite nominees. Mataafa is seriously ill.

SEEKS DIAMONDS.

Wisconsin Professor Finds Evidence to Encourage his Search.

MADISON, Wis., Aug. 1.--A Wisconsin man is looking for a new Kimberley on the American continent. He knows that it is there, but is not sure that he will find it. There are millions in it and it is a little strange that the quest has attracted so little attention and that there have been no spies on his trail seeking to be in at the discovery of the promised diamond mines. From time to time diamonds have been found in Waukesha county and the neighboring parts of Wisconsin. Sapphires have been found there in much greater quantities than diamonds.

At times the faculty of the state university and gem experts from elsewhere have investigated these diamond fields, with the result that they were pronounced not to be diamond fields at all, as the region has absolutely none of the geological formations of diamond-bearing country. So the dreams of diamond mines vanished. The stray diamonds were strays, that was all. How they came to be there, none thought to conjecture until Dr. W. H. Hobbs, professor of mineralogy in the state university, began to investigate the matter.

There were diamonds there, they did not belong to that region. How did they get there? Perhaps dropped by the aborigines, though that was hardly a plausible theory. When gold is found in the bed of rivers, the miners know that it has been washed down from somewhere. They look for the traces of the gold and follow for the mother lode, and thus many rich mines have been discovered. But one could hardly expect to find a trail of diamonds leading to the mother pans. However, the gold hunter's methods furnished a suggestion. Where did the diamonds come from? Where did the boulders and glacial debris of the Kettle range of hills in southern Wisconsin come from? They didn't belong to the underlying local geological formations any more than the diamonds.

Then what more natural conclusion than that the great ice cap which brought down the boulders, pushed the Kettle range as a terminal moraine and dug the myriads of lakes, also brought down the diamonds. So as these boulders had a home somewhere in the far and frozen north, so had the diamonds. Boulders and diamonds came together from British America, from the shores of Hudson's bay, from Michigan down to the Mackenzie, Labrador is the original home of the diamonds, in Dr. Hobbs' opinion, and he is on his way thither. He will follow the path of the glacier and it is taking him in that direction at present. It is easy to follow the direction taken by the great ice cap. But whether the ice cap did not erase all external manifestations of the volcanic crumplings of the diamond pans when it was picking up diamonds and boulders, remains to be seen.

It is possible that a diamond field may be found nearer than Labrador. Indeed, a geologist of Wassau, Mr. T. W. Clark, has risen to say that the diamond field is in northern Wisconsin or Michigan. He says: "Don't Labrador me. The man who talks Labrador talks through his hat. Well-informed men estimate that the upper peninsula of Michigan contains more carbon than the state of Pennsylvania, and no part of the world had more heat and pressure applied to its rock than upper Michigan. We see here all the conditions required for a great natural diamond factory, while the stray diamonds from the glacial drift in southern Wisconsin prove that the great natural diamond factory of upper Michigan has been successfully operated at some former time."

BELIEF IN CANADA

That Americans Will Change Attitude in Regard to Alaska.

OTTAWA, Ont., August 1.--An impression prevails here that the United States is getting ready to climb down from the lofty attitude which it has hitherto assumed on the Alaskan boundary question. A week ago, when the speeches of Sir Wilfrid Laurier and Sir Charles Tupper were made in the house of commons, it was generally believed that the Americans were stubbornly refusing to yield anything and were determined to hold on to the whole of the disputed territory at all costs. The general attitude of Canadians has, however, been somewhat changed by the news which has come within the last few days that the Americans were willing to concede a free port on the Lynn canal through which trade could pass to and from the Yukon without being subjected to American customs regulations.

While this proposition is not regarded as coming anywhere near to satisfying the demands of this country, nevertheless the fact that such an offer has been made has had a noticeably calming effect because it is taken as showing that the Americans will give way if they are pressed hard enough.

Canadians welcome heartily the signs which seem to indicate that the public at large in the United States is becoming sufficiently aroused to what the dispute is all about. They want, in fact, an appeal from the politicians to the people, and they are quite satisfied that if the mass of Americans can once be brought to fully understand the situation they will endorse the idea that the whole question should be arbitrated without restrictions or conditions of any kind. All the same, the offer of a free port under American sovereignty will not be accepted by Canada, and the report which comes from American sources that a settlement along these lines has been accepted by England without consulting Canada is entirely disbelieved.

The Canadian parliament will be prorogued within a few days, and there is no probability that before prorogation any laws will be passed, such as were suggested by Sir Charles Tupper to exclude American miners from the Yukon or to build an all-Canadian railway to Dawson City.

Despondent Mother's Act.

DETROIT, Mich., August 1.--Mrs. Mary Stevenson, of 283 Clinton street, this afternoon poisoned her two children, Emma, aged three, and Ella, aged six, with morphine, and took a dose of it herself. Both the girls are dead and the mother is at death's door. Slight hopes of recovery. Mrs. Stevenson was in straitened circumstances and despondency over it is supposed to have destroyed her reason. Her husband, who is a pattern-maker, left her some time ago and went to Chicago to work. Since his absence she has been unsuccessfully trying to get work and living meanwhile at an uncle's.

London Times' Answer.

LONDON, August 2.--The Times this morning makes no reference to ex-Secretary of War Alger, except in a New York dispatch commenting upon his "apology" and pointing out that the charges preferred against General Alger by many respectable American journals, some of which were repeated in the Times, were made for many months and have never been answered and are not answered now.

GETS ANOTHER.

The National Glass Company Said to Have Secured the

WEST VIRGINIA GLASS PLANT

At Martin's Ferry, Which is Owned Largely by Wheeling People--The Factory Will Close This Evening and Officials of the Combine Will be Here in a Few Days to Take Stock. The Deal put Through Monday.

It is learned on excellent authority that a deal was practically consummated on Monday afternoon by which the West Virginia Glass Company's business and plant in Martin's Ferry, largely owned by Wheeling people, is to pass into the hands of the tableware combine, the National Glass Company, the company that recently acquired the Crystal plant at Bridgeport, and which was unsuccessful in its effort to secure the Central Glass Works, of this city.

The company is capitalized at \$50,000, and it is said that the stock figuring in the transaction was bought up at \$1.25 or \$1.40, thus making the amount figuring in the deal something like \$70,000.

The plant, it is learned, is to be shut down indefinitely this evening at 6 o'clock, and representatives of the combine will be here in a few days to take stock and put the finishing touches to the deal.

PRESIDENT'S OUTING.

Postmaster General Smith Arrives and Confers with Him.

PLATTSBURG, N. Y., Aug. 1.--Soon after Postmaster General Smith arrived at Hotel Champlain this morning, he went for a long walk with the President. They found a seat in a shady spot in the woods and together they talked over in detail the events of the past week in Washington.

General Guy V. Henry and wife called this morning and spent the forenoon playing euchre with the President and Mrs. McKinley. Mrs. McKinley is very fond of the game.

Mr. McKinley is kept fully advised regarding the yellow fever epidemic at Hampton and is in hopes that the authorities there will succeed in preventing the spread of the disease. He has nothing to say in regard to the statement of Secretary Alger, published in the morning papers, Mr. and Mrs. Russell A. Alger, Jr., who have been stopping here for several days, left this morning for New York city.

This afternoon the President and Mrs. McKinley accompanied by Postmaster General and Mrs. Smith, drove east of the summer school grounds toward Plattsburg. The President did the driving. Mrs. McKinley enjoyed the ride very much.

TENTH ANNIVERSARY

Convention Young People's Christian Union at Pittsburgh.

PITTSBURGH, Pa., August 1.--The tenth anniversary convention of the Young People's Christian Union will begin its sessions in Duquesne Garden at 8 o'clock to-morrow evening. Arrangements have been completed and the various sub-committees have their work well in hand. The work involved in arranging the details of the convention has been enormous, has consumed much time and been attended with much expense, but nothing has been allowed to interfere with the completeness of the arrangements and at no previous convention have they been more perfect.

The Christian Union is the recognized Young People's Association of the United States Presbyterian church. It is under denominational control and the first denominational society to be organized.

Rev. J. S. Moffat, of Chester, S. C., president of the convention will preside until the election of a successor which will take place Thursday morning. The attendance at the convention will exceed that at any former convention. About 5,000 delegates are expected from a distance and the number may greatly exceed that. Those coming from within a radius of fifty miles of the city will arrive already, but the rush will begin in the morning.

Among the delegations arrived to-night are those from Monmouth, Ill.; Xenia, Ohio; Richmond, Ind.; New York; Newville, Pa.; Reynolds, Pa.; Muncie, Ind., and Indianapolis.

WINDOW GLASS WORKERS.

Attorney General Requested to Defend them Against Injunction.

PHILADELPHIA, Pa., August 1.--The convention of the window glass workers' association, local assembly No. 300, Knights of Labor, opened here to-day with twenty-six delegates in attendance. The object of the meeting is to revise the by-laws and fix a scale of wages. The latter will be done by the wage committee, consisting of twelve members of which Simon Burns, of Pittsburgh, is president. During the convention an effort will be made to meet the manufacturers in conference.

A resolution was adopted, endorsing the efforts of the bottle blowers to better the condition of the workers of New Jersey and thanking the Jersey clergy, officials, business men and general public for their support of "right, justice and organized labor against oppression, injustice and capital."

The resolution also requests the attorney general to defend organized labor against injunctions. The sessions of the convention will continue all this week.

Drowned in the Klondike.

NORTH BALTIMORE, Ohio, August 1.--Advices have been received here of the drowning at Crook's Inlet, in the Klondike, of Dr. A. L. Lee and Gideon Kratzer, of this city, together with twenty others. The news was limited to the bare announcement without details.

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard st., Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made it a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure--"It soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel the soundness of my lungs throughout the system. So will everyone who tries Dr. King's New Discovery for any trouble of the throat, chest or lungs. Price 50c and \$1.00. Trial bottles free at Logan Drug Co.'s drug store; every bottle guaranteed."

ENGLISHMAN'S GROWL

Of Lack of Accommodations in the Philippine Campaign.

LONDON, August 1.--The special artist of the Daily Graphic of this city, now in the Philippine Islands has been indulging in a vigorous growl at the treatment which he says he has been subjected to "by authorities who are so deficient in common sense, to say nothing of courtesy, as to forbid an artist the assistance which he might provide for himself by engaging servants to carry the food the military authorities decline to supply even now on payment."

He adds: "If this campaign were conducted by the British, there would be officers commanding at the base and lines of communication, roads would be repaired, streams would be bridged or ferries established and supply trains would be moved along establishing depots."

"I have accompanied five British expeditions where these characteristics prevailed, but this is the first campaign I have seen which the transport service was systematically neglected. Even the Chinese established depots in 1894. But here, you cannot be taken by cart from Manila to San Tomas, by road, without having to swim streams. But for a bit of single railway line the troops would be starved on this line of operations. As it is they are but fed from hand to mouth."

INTERNATIONAL PHASE

Of the Italian Lynchings in Louisiana Grows More Serious.

WASHINGTON, D. C., August 1.--The international phase of the Italian lynchings in Louisiana has assumed a rather more serious aspect as a result of several official reports received here. These show that the Italian officials on the scene believe that four out of the five men lynched were Italian citizens in the fullest sense. While the reports are not final the Italian authorities have no doubt that they will be borne out by the inquiries now in progress, and it is to remove all possible doubt that Marquis Romano, of the Italian embassy has gone to Louisiana. He has been commissioned as consul to New Orleans, owing to the absence of the consul on leave and in that capacity he will go to Tallulah and make a careful investigation.

The Italian authorities have also taken note of the statement attributed to Dr. Hodges, whose assault led up to the lynching. This states that after the assault he walked away, indicating that the offense was not of a character to warrant the lynching of five persons.

CUBAN AFFAIRS.

Captain Fenton Exonerated--Police Seize Rifles and Swords.

HAVANA, Aug. 1.--A court martial has exonerated Captain Fenton for his connection with the recent clash at Cienfuegos between American soldiers and the police.

The police have seized a quantity of old rifles and swords, the property of an American named Rogers, who claims he purchased the weapons from Cubans, to resell in America as war relics.

All the civic authorities attended the funeral of the fireman who was fatally injured Sunday at the exhibition given by the fire department. The Diario de la Marina has opened a subscription for the benefit of the family of the deceased.

Owing to a recent disturbance in connection with a fire at Matanzas, the chief of firemen has asked the mayor to petition the American authorities to confine the soldiers to aiding the police to keep the people away, so avoiding friction between the firemen and soldiers.

Boston Democrat's Kick.

BOSTON, August 1.--The board of aldermen to-day passed an order, requesting the board of estimate and apportionment to appropriate a sum sufficient for extending the hospitality of the city of Boston to Admiral Dewey. Alderman Michael Brick, Democrat, forcibly opposed the measure. He said, in explaining his position: "I don't think that we should throw ourselves into a state of adulation of a hero because he has won a battle. It hardly strikes me that the admiral is to be put in the same category with Grant, Sherman and other great military heroes. I do not, however, wish to discredit him in the list, but I do protest against making him a second Boulanger in America."

Alabama Lynching.

GEORGIANA, Ala., August 1.--Solomon Jones, a negro, was hanged by a mob near Forest, this county, for attempting to assault a young white woman.

ABOUT one month ago my child, which is fifteen months old, had an attack of diarrhoea accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief, we sent for a physician and it was under his care for a week. At this time the child had been sick for about ten days and was having about twenty-five operations of the bowels every twelve hours, and we were convinced that unless it soon obtained relief it would not live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended, and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought about and it is now perfectly healthy.--C. L. Rogers, Stumpston, Gilmer County, W. Va. For sale by druggists.

DIED.

OSBORN--At Pittsburgh, on Monday, July 31, 1899, at 2 p. m., MARY, beloved wife of Henry G. Osborn, of 122 Woodville avenue, West End, in the 43rd year of her age.

ON THE WAR PATH.

Mexican Indians on a Slaughtering Expedition--Americans Killed.

ST. LOUIS, August 1.--A special to the Globe Democrat from Ortiz, Mexico, says:

Any doubt that the Yaquis are on the warpath in earnest was dispelled to-day, when news reached here that several Americans and Mexicans had been killed in pueblos, or towns in the Yaqui river valley east and southeast of this station.

The courier who came in with the news of the slaughter declares that he saw a desperate fight at a point forty miles southeast of Ortiz, and that he has positive evidence that J. F. Remley, a merchant of Hermisillo, and E. Miller, a photographer in his employ, were among the killed.

Remley was one of the best known Americans in Sonora.

The inhabitants of the towns in and near the Yaqui valley are in a state of terror.

General Torres, commander of the first military zone, which includes Sonora, Sinaloa and Lower California, who was in the field with the Twelfth regiment, is reported among the slain.

No information is obtainable as yet of the number of fighting Indians under arms, but if the outbreak is of the proportions of the war ended in 1897, the number may be placed at between three and four thousand. This outbreak is a surprise to the state and army officials.

It is impossible to secure accurate figures as to the total number killed to date, but the estimate at fifty on each side is not considered excessive.

Ingersoll Left no Will.

NEW YORK, August 1.--A man who is closely connected with the late Col. Robert G. Ingersoll's family, says that no will of Col. Ingersoll has been found, and that nobody who knew the colonel thought there was one.

"The colonel did not believe in wills," he said. "All who knew him well have heard him say so frequently. His theory was that a man's estate should be settled and distributed by the machinery of the law constructed for that purpose."

"Do you know whether he ever expressed any wishes about the disposition of his estate?"

"No; it is very improbable that he did. I don't think he ever thought much about that subject. He considered the law fair, and was willing to trust to it."

As to what Col. Ingersoll left the man said he did not believe anybody knew yet. He thought it extremely unlikely that the family had made any investigations.

Valley Grove Notes.

The Rev. Mr. Thompson, former pastor of the Roney's Point Presbyterian church, preached in the Valley Grove school house on Sabbath evening last to one of the largest religious assemblies that ever convened there. The ladies had standing room only, while the men thronged in the school yard unable to get in the house. It was a flattering testimonial to Mr. Thompson's ability and eloquence that such a vast congregation greeted him.

Dr. George Lewis, late of eastern Ohio, has sold his practice on account of declining health and is here for a few days' rest. He is a former citizen of this place. He will leave in a few days for southeastern Virginia and rustic life in the mountains. Should he become restored to health, he may locate in Virginia.

Miss Margaret Maxwell, of this place, was the guest of Mrs. McCoy at the residence of I. F. Jones, at Elm Grove, a few days since. Mrs. McCoy will leave shortly to visit relatives in Illinois, after which she will leave for California to remain for some time.

It is currently reported that the West Virginia Natural Gas Company will replace their sixteen-inch pipe line in the National road with one of smaller dimension and proof against leakage, in the near future.

A severe storm visited the vicinity of Clinton last Saturday evening. Some

trees were blown down and many haystacks were overturned and corn fields were damaged to some extent.

The county commissioners are having a retaining wall built at the northeast side of the bridge over the National road here.

MARTIN'S FERRY NEWS.

The Daily Chronicle of Wheeling's Progressive Neighbor.

Frank Patterson, one of the contractors at work at the Laughlin mill putting up the new stacks, met with a bad accident yesterday morning. He was engaged at work in the mill when his clothing caught in one of the shaft wheels and afforded him one of the fastest "merry go round" rides he ever had. His clothing was cut loose but not until he had received a bad three-inch gash in the back of his head and a four-inch cut in his right leg. Several stitches to close the wounds were found necessary by Dr. Hurry.

Great trials and tribulations are befalling the drillers at work on the new artesian well at the Belmont brewery. First they were off a few days waiting on the ten-inch casing to arrive, then they were off several days occasioned by the breaking of two cog wheels, but it was not until yesterday afternoon that they met their greatest "Jonah." The derrick which is attached to the engine, gave way under the great weight of the tools. The derrick was broken off about ten feet from the base. This will stop work for several days.

The Ladies of the Valley Mission band of the Presbyterian church, will give a lawn fete this evening, on the vacant lot on the corner of Fourth and Walnut streets. Proceeds are to go towards the Holiday memorial fund.

Dr. and Mrs. A. W. Diven left yesterday for Indiana, Pa., to attend the marriage of the latter's sister, Miss Marie Wilson, to Dr. M. M. Davis, which occurs to-morrow afternoon at 2 o'clock.

Arthur Reynolds, who for several years has been principal of the high school in this city, sent in his resignation to the board of education yesterday. No reason for his resignation was given.

Miss Kate Collier, of Uhrichsville, will be here to-day, to visit Miss Maggie McWilliams, on Third street.

Miss Gene Alexander, of Rock Hill, is the guest of Miss Lena Williams, of Broadway.

George W. Tweedy and family have returned from "Camp Rest."

Miss Ethel Murdock goes to Bethesda to-day, to visit relatives.

Joseph Harrison, of Harrisville, was in the city yesterday.

Rev. H. N. Campbell returned to Paris, Pa., yesterday.

Tie Huskins went to East Liverpool last evening.

Dr. Burton left yesterday for Logansport, Ind.
